### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Reissue Applications***

1. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Albu (3,463,149). Albu discloses a clip including a bendable arcuate U-shape band (19,fig. 5) and a pair of reverse curvatures extending from U shape band, and a pair of absorbent pads (10) containing medication/perfume (col. 2) attached to distal end of the clip. The introductory statement of intended use and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Albu's device which is capable of being used as claimed if one desires to do so.
4. Claims 1, 2, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Pletcher (1,579,486). Pletcher discloses a clip including a bendable arcuate band (1) having a pair of reverse curvatures near distal ends (fig. 2-3) and wads containing vaporizing medicament.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 3-10, 14-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pletcher. Pletcher discloses a clip as claimed.

In regard to claims 7-10 and 18-21, although, Pletcher does not disclose a plurality of clip being packaged in separated sealed pockets. Official Notice is taken that the concept of making multiple disposable devices and packing them in separated seal pockets would have been obvious to one of ordinary skill in the art to ensure sterile products and for easily dispensed.

In regard to claim 3-6 and 14-17, Although, Pletcher does not disclose the clip being coated with soft fabric material. Official Notice is taken that the concept of coated a metal or plastic device with cloth material would have been obvious to one ordinary skill in the art to make the metal or plastic device compatible with sensitive skin.

***Allowable Subject Matter***

7. Claims 11 and 22 are allowed. The prior art fails to disclose a method of using the clip as claimed during a dental procedure or at crime scene investigations, autopsies, and sewage disposal systems and hazardous occupational environment.
